

# ECCLESIASTES - THE CONCLUSION

September 22, 2024    Text: Ecc 10-12    Dr. Stephen Burrell

Reminder to simply enjoy the day.

Fear God and keep His commands.

Needs, longings, and desires – foundational to create the norms, mores, and values of our life.

Beliefs – what we know or come to know to be true, what is right or real.

Thoughts – the musings of our minds.

Emotions – Both positive and negative reactions.

Actions – what we do and what others see us do.

The very foundation of our life is to worship, extol, and “fear” God.

The foundation of how our choices play out should be in line with God – obedience.

Every action should be considered against the underlying need, longing, desire, and whether our beliefs on how to get them met are in line with text.
